

Certified Registered Nurse Practitioners (CRNP) - Faculty Only

CRNPs who have never applied for a Faculty Only position will need to complete the 'First Time CRNP application', which will bypass the collaborative part of the application. The CRNP - Faculty Only supervises nurse practitioner students in direct care of patients in clinical settings where a CRNP in an approved collaborative practice or a physician is present to oversee patient care.

CRNPs needing to reinstate a CRNP-Faculty Only approval will need to complete an "Application for Reinstatement of Lapsed Approval for Advanced Practice Nursing".

The application is available under the Licensing tab on the home page, left column under Reinstatement (view below), then select Advanced Practice Approval, which will open up the downloadable application.

On-Line View

Please note: CRNP Faculty Only applicants must also submit a letter from the Dean/Program Director of the nursing school on institutional letterhead confirming faculty status in the Nurse Practitioner educational program.
